

Smarter structures start with cost-effective, sustainable solutions

The ProPEX® engineered polymer (EP) male threaded adapter combines durable, economical polymer material with the reliable ASTM F1960 connection professionals have come to depend on for a solution that stands the test of time.

Product offering

Part no.	Part description
Q4625050	ProPEX EP Male Threaded Adapter, ½" PEX x ½" NPT
Q4627575	ProPEX EP Male Threaded Adapter, ¾" PEX x ¾" NPT
Q4621010	ProPEX EP Male Threaded Adapter, 1" PEX x 1" NPT

Installation recommendations

- › Use a minimum of three wraps of PTFE thread-seal tape.
- › If using thread-sealant paste in addition to tape, consult the paste manufacturer for compatibility with polymer fittings.
- › To avoid cross-threading, turn the fitting counterclockwise against the female threads until the threads drop into place. Then, tighten accordingly.

Reliable

Made from high-performance polymers manufactured to the highest standards with decades of consistent use in plumbing and hydronic applications.

Safe, economical

Eliminates glues, solvents, and open flame on the job site for lower costs and worker safety.

Proven

ASTM F1960 ProPEX design featured in millions of fittings in service worldwide, all backed by the solid Uponor 25-year transferable limited warranty for complete confidence.
