

FULL PRODUCT LINE POCKET GUIDE

RESIDENTIAL & COMMERCIAL

The story is all in the details. Every water heater that carries the A. O. Smith name has a reputation to live up to, one that we've earned through 140 years of innovation. As an industry leader, we constantly look for new materials and develop new technologies that can improve energy efficiency. So, when you choose an A. O. Smith water heater, whether it's gas, electric or hybrid you can be confident that you are getting the best water heating solution regardless of the application—for today and for years to come. Innovation has a name... A. O. Smith.

All A. O. Smith residential water heaters meet the Federal Energy Efficiency Standards effective April 16, 2015, according to the National Appliance Energy Conservation Act (NAECA) of 1992, and meet the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1. They also comply with the current edition of ICC Codes and the HUD Standards. Gas models meet American National Standards Institute Standards (ANSI Z21.10.1 - CSA 4.1) governing storage-type water heaters. Electric models are UL listed according to safety specifications outlined in Underwriters Laboratories, Inc. Standards for Safety (UL 174).

Introducing the ProLine® Family of Commercial-Grade Residential Water Heaters

ProLine® XE
Vertex™

ProLine® Master

ProLine®

When it comes to building a tough commercial-grade water heater, the keys to success are outstanding components and superior manufacturing capabilities. We've combined these two important elements to create the ProLine® Family of commercial-grade residential water heaters. This wholesale-channel exclusive will give A. O. Smith's contractors the ultimate advantage.

WHY PROFESSIONALS CHOOSE A. O. SMITH

EARN POINTS BY PURCHASING A. O. SMITH WATER HEATERS

It's free and easy to participate. Enroll online at contractorrewards.com. Eligible products will have a yellow reward code label worth valuable points. Two ways to enter the codes:

1. Download the smartphone app and scan the code.
2. Enter the code at contractorrewards.com.
3. Redeem your points on thousands of reward items.

**CONTRACTOR
REWARDS.COM**
Your Business. Your Choices. Your Rewards.

WITH OVER 1,000,000 MERCHANDISE ITEMS, YOUR REWARD CHOICES ARE ENDLESS.

A. O. SMITH PROVIDES 6 KEY THINGS

TO HELP GROW YOUR BUSINESS & BECOME MORE PROFITABLE

1. Contractor Locator

A new online locator that drives thousands of consumers from our website right to our loyal contractors. Your company listing is free and generated for you when you participate in our Contractor Rewards™ program. * Visit hotwater.com/contractorlocator for more information.

2. Contractor Rewards Program

Our program rewards our loyal contractors for buying our products. Buy more and get rewarded with prizes and higher status on our Contractor Locator.

3. Contractor Advertising Tools

Our Advertising Resource Center allows contractors to develop an easy, affordable and custom advertising campaign to promote their business. Go to www.hotwater.com/ads.

4. Breadth of Product Line

Residential or commercial, we have the most complete line from standard models to the most innovative high efficiency water heaters available.

5. Product Sales Tools

We provide contractors access to the sales tools needed to close more sales.

6. Brand Support

Marketing investment in our brand drives consumers to recognize our name, visit our website, locate local contractors and request products.

*To be listed on the Contractor Locator you must meet the minimum threshold of codes entered at contractorrewards.com

Visit hotwater.com/contractor to learn more.

VERTEX™ HIGH EFFICIENCY POWER VENT

Power Vent Design for Installation Versatility

- Helical internal heat exchanger achieves 90% thermal efficiency, which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Combined horizontal and vertical vent runs terminating through an outside wall, using Schedule 40 PVC pipe as follows:
 - 2" pipe allows vent runs up to 25 equivalent feet.
 - 3" pipe allows vent runs up to 65 equivalent feet.
 - 4" pipe allows vent runs up to 128 equivalent feet.

Side-Mounted Taps for Recirculating Systems

- Hot and cold "side taps" allow Vertex Power Vent to be used for combination space/water heating applications.

Intelli-Vent™ Gas Control with Silicon Nitride Hot Surface Ignitor

- Premium-grade hot surface ignitor eliminates standing pilot.
- Electronic circuitry provides superior system diagnostics capabilities plus extremely precise temperature control.

Blue Diamond® Glass Coating with Two Heavy Duty Anode Rods

- Provides superior corrosion resistance compared to the industry-standard glass lining.

Green Choice® Gas Burner

- Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

Dynaclean™ Diffuser Dip Tube

CSA Certified and ASME Rated T&P Relief Valve

Maximum Hydrostatic Working Pressure: 150 psi

Code Compliance

- Meets UBC, CEC and ICC National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

GPHE-50	71-1/8	68-5/8	52	21	9-1/8	12	22	8	15-3/4	27	210

Available in natural gas only.

Standard model certified for sea level to 5,300 ft. elevation. Order SMR K30 for elevations to 10,100 ft.

Optional Condensate Neutralizer Kit available (Part Number 100112380).

VERTEX™ HIGH EFFICIENCY POWER DIRECT VENT

GDHE-75

Condensing Design

- Operates at 96% thermal efficiency, which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Equipped with condensate drain tee.

Helical Internal Heat Exchanger

- Spiral heat exchanger keeps hot combustion gases in the tank longer to lengthen the heat transfer cycle.

Power Direct Vent Design

- Combined vertical and horizontal runs terminating through an outside wall. Vents using PVC, CPVC or ABS pipe.
 - 2" pipe, vents up to 45 equivalent feet.
 - 3" pipe, vents up to 128 equivalent feet.

Side-Mounted Hot and Cold Recirculating Taps

- Allows Vertex to be installed as part of combination space heating/water heating applications.

Advanced Electronic Control

- Large LCD display.
- Precise temperature control.
- Advanced diagnostics.
- iCOMM™ compatible and can be monitored from remote locations: Call 1.888.WATER02 for more information.

Code Compliance

- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.
- Meets UBC, CEC and ICC National Codes.
- Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.

Design-Listed by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

RESIDENTIAL GAS

POLARIS® HIGH EFFICIENCY

Condensing Design

- Operates at up to 96% thermal efficiency which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Helical internal heat exchanger keeps hot combustion gases in the tank longer to extract more heat into the water.
- Modulating burner maintains high efficiency operation at lower input rates.

Stainless Steel Construction

- Tank and helical heat exchanger are constructed from 444 stainless steel for excellent corrosion resistance without the need for an anode.

Whisper Quiet Operation

- Ultra quiet blower and burner minimize noise.

Power Direct Vent Design

- Direct vent using PVC, CPVC or ABS either thru-the-wall or thru-the-roof.
- Optional concentric vent kit

Advanced Electronic Control

- Large LCD display provides precise temperature control and advanced diagnostics.

Code Compliance

- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.
- Meets UBC, CEC, and ICC National Codes.
- Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.

10-Year Limited Tank and 1-Year Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

Available in Propane (LP) gas. Specify when ordering Propane (LP) gas.
Models certified for sea level to 7,700 ft. elevation.

PROLINE® XE NON-CONDENSING POWER VENT

Versatile Power Vent Design

- All models feature an exclusive 3-position rotatable blower outlet which adds flexibility.
- Combined horizontal and vertical vent runs up to 180 equivalent feet with 4" diameter venting (ABS, PVC, CPVC and polypropylene).
- All models are equipped with a protected sensor that detects the presence of flammable vapors and automatically disables the burner to prevent ignition.
- Air intake snorkel elevates the inlet location of combustion air to prevent flammable vapors from entering the sealed combustion chamber.

Hot Surface Ignitor

- More robust and reliable than standing pilot, and reduces energy consumption

Built-in Heat Traps on the Water Inlet and Outlet Reduce the Amount of Heat Lost Through Piping

2-Inch-Thick, "Environmentally Friendly" Foam Insulation Reduces the Amount of Heat Loss and Contributes to Overall Energy Efficiency

User-Friendly

- State-of-the-art electronic gas control provides more precise temperature control.
- LED control light displays operation status and diagnostics information.

Enhanced-Flow Brass Drain Valve Available in Natural Gas and Propane Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA) as amended.

Design-Listed by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

RESIDENTIAL GAS

EFFEX® HIGH EFFICIENCY ATMOSPHERIC VENT

Pressurized Combustion System

Installation Friendly

- Allows for easy replacement of standard atmospheric vent heaters.
- Easily connects to existing B-vent.

Fan-Assisted, Category 1 Appliance

- Plugs into standard 110/120V outlet (10 foot power cord included).

24V Electronic Controls

Electronic Ignition

LCD User Interface

- Easy-to-read, eye level display.
- Simple temperature settings and adjustments.
- Service diagnostics are in plain text.

Powered Anode Rod

Enhanced-Flow Brass Drain Valve

DynaClean™ Diffuser Dip Tube

Green Choice® Gas Burner

- Patented eco-friendly gas burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IESNA90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act, (EPCA), as amended.

Design-Certified by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure. Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type gas water heaters.

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act, (EPCA), as amended.

Design-Certified by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1 - CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

* Location for optional top-mounted T&P Valve if ordered from factory.

Maximum Hydrostatic Working Pressure: 150 PSI.

Requires 120 VAC power supply.

Water connection is 3/4" on all models.

Specify when ordering Top T&P.

All models are certified from sea level to 10,100 ft. elevation.

*GCFL-50 available in natural gas only. All other models available in propane (LP) gas.

RESIDENTIAL GAS

PROLINE® XE HIGH EFFICIENCY NON-CONDENSING ULTRA-LOW NO_x FLUE DAMPER

ENERGY STAR® Efficiency

- Eco-friendly non-CFC foam insulation and an automatic flue damper increase efficiency to provide maximum household annual operating cost savings.

Green Choice® Gas Burner

- Enhanced Ultra-Low NO_x burner complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NO_x emissions of less than 10ng/J.

Electronic Gas Control

DynaClean™ Diffuser Dip Tube

CoreGard™ Anode Rod

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

Requires 120V Power; 19.5 Ft Cord Included

Code Compliance

- Meets UBC, CEC, and HUD (excluding mobile homes) National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

CSA and Design-Certified by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1 – CSA 4.1 standards governing storage tank-type water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

Maximum Hydrostatic Working Pressure: 150 PSI.

Requires 120VAC power supply located within 19ft of the heater.
 Water connection is 3/4" on all models.
 Standard top T&P, specify when ordering side T&P.
 All models are certified from sea level to 7,800ft elevation.

RESIDENTIAL GAS

PROLINE® XE HIGH EFFICIENCY NON-CONDENSING ULTRA-LOW NO_x POWER VENT

Power Venting Made Simple

- Thru-the-wall or thru-the-roof power venting using either 2" or 3" PVC, ABS or CPVC vent pipe.

Intelli-Vent™ Gas Control

- Advanced electronics for more precise control of water temperature and easy to understand system diagnostics.

Combination Thermostat/ECO

- Utilizes an intermittent ignition gas valve (no standing pilot) with thermistor temperature sensor and built-in high temperature cut off.

Quiet and Efficient Blower

- Factory-installed 6-foot power cord with standard 3-prong male connector provided. Electrical requirements; 110/120 VAC power source less than 5 amp draw.

Dynaclean™ Diffuser Dip Tube

- Reduces lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer.

Coregard™ Anode Rod

Green Choice® Gas Burner

- Complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NO_x emissions of less than 10 ng/J.

Enhanced-Flow Brass Drain Valve

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act, (EPCA), as amended.

Design-Certified by CSA-International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type gas water heaters.

6-Year Limited Tank and Parts Warranty

Water connection is 3/4" on all models.

For 10-year tank and 10-year parts warranty, change "G" to "X" in model number (example: XCR-30).

All models approved for installation from sea level to 10,100 ft. elevation.

† Models ship with supplied insulation blanket

Specify when ordering propane (LP) gas.

‡ LP models not available on GCRH-40

*For optional side-mounted recirculating taps, add "L" to the suffix in the model number.

RESIDENTIAL GAS

PROLINE® ENERGY SAVER ATMOSPHERIC VENT MOBILE HOME

Complies with HUD Standards for Manufactured Housing Installation

Gas Control Convertible for Natural and Propane Gas

- For flexibility to meet the varying needs of manufactured housing installations.

Side-Mounted 3/4" Cold Water Inlets

- For flexibility to meet the varying needs of manufactured housing installations.
- Top-mounted 3/4" hot water outlet.

Green Choice® Gas Burner

- Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/l.

CoreGard™ Anode Rod

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

Design-Certified by CSA International

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to ANSI Z21.10.1-CSA 4.1 standards governing storage tank-type gas water heaters.

CSA Certified and ASME Rated T&P Relief Valve

6-Year Limited Tank and 2-Year Limited Tank Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

All models ship from factory for use with natural gas. A complete propane (LP) burner is supplied for converting to propane gas.

No option available for top T&P.

Certified from sea level to 10,100 ft. elevation.

PROLINE® ENERGY SAVER DIRECT VENT MOBILE HOME

Complies With HUD Standards For Manufactured Housing Installation

Gas Control Convertible for Natural and Propane Gas

- For flexibility to meet the varying needs of manufactured housing installations.

Direct Vent Models Package with Bottom Intake Air Vent

- To draw all combustion make-up air from outside the structure.

Optional Ducted Air Inlet Kit for Direct Vent Models

- For use when water heater is installed over a basement.
- Provision for horizontal air inlet ducting.

Side-Mounted 3/4" Cold Water Inlets

Green Choice® Gas Burner

- Patented eco-friendly burner design reduces NOx emissions by up to 33% and complies with Low-NOx emission requirements of less than 40 ng/J.

DynaClean™ Diffuser Dip Tube

CoreGard™ Anode Rod

Enhanced-Flow Brass Drain Valve

Blue Diamond® Glass Coating

All models are certified for installation from sea level to 5,400 ft. elevation.

RESIDENTIAL GAS

PROLINE® ULTRA-LOW NOx

The Electronic Gas Control Incorporates an LED Status Indicator that Monitors System Operation and Service Diagnostics

High UEFs

- Eco-Friendly non-CFC foam insulation, external heat traps and specially designed combustion chamber combine to produce a high UEF for maximum savings on operating costs.

Green Choice® Gas Burner

- Enhanced Ultra-Low NOx burner complies with SCAQMD Rule 1121 and other air quality management districts with similar requirements for NOx emissions of less than 10 ng/J.

DynaClean™ Diffuser Dip Tube

CoreGard™ Anode Rod

Push-Button Piezo Ignitor

Heat Trap Nipples

Blue Diamond® Glass Coating

RESIDENTIAL GAS

PROLINE® ULTRA-LOW NO_x HIGH CAPACITY

Fully Automatic Controls with Safety Shutoff

Heavy Gauge Steel Jacket

Blue Diamond® Glass Coating

Foam Insulation

Ultra-Low NO_x Emissions

- Complies with SCAQMD Rule 1146.2 and other Air Quality Management Districts with similar requirements of 14 ng/J or 20 ppm.

Easy-To-Install

- Completely factory-assembled. Only gas, water and vent connections need to be made. All connections are located in front and top of heaters for ease-of-installation and service.

Coregard™ Anode Rod

- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

Maximum Working Pressure

- 150 psi.

Maximum Gas Inlet Pressure

- 14" W.C.

Code Compliance

- The Ultra-Low NO_x atmospheric vent residential gas water heater meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and Current Edition ASHRAE/IES 90.1.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

RESIDENTIAL ELECTRIC

VOLTEX[®] HYBRID ELECTRIC HEAT PUMP

Increased Energy Efficiency

- Reduce water heating costs up to 71% compared to a standard electric water heater.
- Up to a 3.42 Uniform Energy Factor (UEF) Rating conserves energy and meets ENERGY STAR[®] qualifications.

Dual Voltage Capable

- 208/240 VAC 60Hz capable for use in almost any residential installation.

Choice of Operating Modes

- Select from Efficiency, Hybrid or Electric modes to match heating requirements to environmental conditions and hot water demand. Hybrid mode automatically adjusts between compressor and element, depending upon heat requirements.
- Vacation mode reduces operating costs and provides freeze protection during extended absence.

Backup Electric Elements

- Long-lasting 4500W backup heating elements help heat water according to environmental conditions, demand, and the chosen operating mode.

Dry Fire Protection

- Control system checks to ensure the tank is full of water during start up to prevent dry firing the heating elements.

Electronic User Interface

- User-friendly electronic interface allows easy control of temperature setting, operating mode, and communicates diagnostics.
- Advanced diagnostics convey error messages for service purposes. The last four error messages are saved in the control system memory.

Other Features

- Ideal for basements or garage installations; the compressor transfers heat to the water while dehumidifying and cooling the ambient air.
- Washable air filter is easily removed for routine cleaning.
- Accessory Inlet/Outlet Duct Kit (Part number 100234320)

10-Year Limited Warranty

- For complete information, consult written warranty or go to hotwater.com.

RESIDENTIAL ELECTRIC

PROLINE® XE ELECTRONIC DISPLAY

Electronic User Interface

- Touchscreen display.
- Multiple operating modes help save money.
 - Energy Saver and vacation modes available.
- Diagnostic feedback.
- Dry fire protection.

Enhanced Heating Elements

- Dual 5500 watt elements for the fastest recovery and reliable operation.
- Incoloy stainless steel elements last longer than standard copper elements.

Enhanced-Flow Brass Drain Valve

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

Approved for Manufactured Housing

- All residential electric water heaters are compliant with HUD standards for mobile homes/ manufactured housing.

Design-Listed by Underwriters Laboratories

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to UL 174 standards governing storage tank-type electric water heaters.

10-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

* Models ship with supplied insulation blanket.

† For 10-year tank and 10-year parts warranty, change "E" to "P" in the model number (example: ENT-30 becomes PNT).

Top T&P is not available on the 10 year lowboy models.

3/4" water connections on 8" center.

ENL-20 is a single element configuration only

Approved for Manufactured Housing

- All residential electric water heaters are compliant with HUD standards for mobile homes/ manufactured housing.

Side Water Connections

- For ease of installation in mobile home applications.

CoreGard™ Anode Rod

- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection far longer than standard anode rods.

Long-Lasting Heating Elements

- Screw-in, direct immersion, 3500W/240V or 3000W/120V heating elements for maximum efficiency.

Blue Diamond® Glass Coating

Enhanced-Flow Brass Drain Valve

- Our residential water heaters have a solid brass, tamper resistant, enhanced-flow, ball type, drain valve.
- Uses a standard female hose fitting that allows for fast and easy draining during maintenance.

CSA Certified and ASME Rated T&P Relief Valve

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

Design-Listed by Underwriters Laboratories

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to UL 174 standards governing storage tank-type electric water heaters.

6-Year Limited Tank and Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

RESIDENTIAL ELECTRIC

PROLINE® SPECIALTY ELECTRIC

LOWBOY

TABLE TOP

COMPACT

POINT-OF-USE

Approved For Manufactured Housing

- All residential electric water heaters are compliant with HUD standards for mobile homes/manufactured housing.

Table-Top

- Features a convenient flat porcelain surface at 36" height, providing extra "counter space" wherever installed. All plumbing and electrical connections are made through the back of the water heater. This heater is equipped with a PEX cross-linked polymer dip tube.

Point-of-Use

- Designed for low-demand, such as office lavatories or buildings with remote restrooms.

Compact

- Side-mounted plumbing and electrical connections (optional top-mounted water connections for field conversion). Designed for installation under a counter, in a crawl space or in other tight spaces.

Code Compliance

- Meets UBC, CEC and HUD National Codes.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.
- Complies with the Federal Energy Conservation Standards effective April 16, 2015, in accordance with the Energy Policy and Conservation Act (EPCA), as amended.

Design-Listed By Underwriters Laboratories

- Certified at 300 psi test pressure and 150 psi working pressure.
- Listed according to UL 174 standards governing storage tank-type electric water heaters.

6-Year Limited Tank And Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

PUMP TANKS

Multiple Head Construction Adds Structural Strength and More Capacity within the Same Diameters

- Interior powder coating is permanently bonded to the tank shell for ultimate protection on the water side of the tank.
- Butyl rubber parabolic diaphragm.
- Positive lock retention system controls compression in the diaphragm connection, eliminating air loss or water leaks in tank.
- Electrostatically applied powder-coated exterior for maximum sunlight (UV) resistance with zinc phosphate undercoat for highest corrosion resistance.
- Corrosion-resistant metal air valve.
- Rust Guard No-weld steel base
- 5-year limited warranty.

PROLINE® XE CONDENSING WITH RECIRCULATION PUMP

INDOOR MODEL

OUTDOOR MODEL

ANSI Z21.10.3 • CSA 4.3

Integrated Recirculation Pump

- Simplify installation by eliminating added time and money spend sourcing and installing pump and controls. Integrated front panel controls are easy to view and set.
- 1/2" pipe - 200'
- 3/4" pipe - 500'

Pump Controls

- Included with heater
- Two timer settings
- Adjustable differential settings

ENERGY STAR® Qualified

Ultra-Low NOx Emissions

- Complies with SCAQMD 1146.2 NOx emission requirements of 14 ng/J or 20 PPM

Indoor Models

- Include integrated temperature and pump controls with advanced diagnostics that simplify installation and troubleshooting
- Factory-installed power cord

Outdoor Models

- Includes a wall mount temperature remote controller and advanced diagnostics to simplify troubleshooting

Common Vent Indoor Models Up to 8 Heaters

- Easy-link with up to three 540H condensing tankless heaters to increase flow capacity

Safety Features

- Air-Fuel Ratio (AFR) Sensor.
- Exhaust & Water Temperature Safety Control.
- Overheat Cut-Off Fuse.

Internal Freeze Protection

Warranty

- 15-year limited warranty on heat exchanger in residential applications
- 6-year limited warranty on heat exchanger in commercial applications
- 5-year warranty on all parts

COMMERCIAL TANKLESS RACK SYSTEM

Freestanding

Wall Mount

Back-to-Back

Multiple Design and Installation Configurations

- Wall mount, freestanding in-line, and freestanding back-to-back designs
- Indoor and outdoor rack designs
- Uses the 540H high efficiency condensing tankless heaters.

Expandable

- Up to 1,592,000 BTU on a single rack system
- Able to link up to 20 heaters together with Multi-Link system

Redundancy

- Multiple combustion systems provide piece of mind
- Easily isolate a unit for maintenance which extends the life of the heaters

Lightweight

- Anodized aluminum frame
- Utilizes the industry's lightest 199,000 BTU high efficiency condensing tankless heater

Easy Field Installation

- Reduce installation costs with three simple connections (cold water, hot water, and gas)

Ultra-Low NOx Emissions

- Complies with SCAQMD Rule 1146.2 NOx emission requirements of 14 ng/J or 20 PPM.

Warranty

- 1-year limited warranty on rack parts

BUILDING MANAGEMENT SYSTEM BACnet & MODBUS INTERFACE

Connect Your A. O. Smith Water Heater to your Building Management System Using the New Millennium Control from ICC (Industrial Control Communications, Inc.)

- Works with Cyclone, McBee DVE, Renton DSE/DVE/DHE (Except BTX-80)
- Use the ICC Control to enable/disable the water heater
- Change Temperature Set points and differentials
- Two models with four different configurations to connect to BACnet and Modbus
- Ethernet and Serial RS-485 versions available
- 2 wire or 4 wire RS-485 Network
- Power can be supplied via the USB cable, as a 7-24 VDC input on the main terminal Block, or via IEEE 802.3af Power over Ethernet (PoE on ETH-1000 only)
- Configure protocols, network characteristics, and client/server object definitions
- Graphically interact with the internal database in real-time via USB connection
- Automatically discover and configure IP settings Ethernet gateways connected to the current subnet
- Update Firmware

- RTU and serial connect via RS-485
- Ethernet and IP connect via RJ-45

Power Vent Design for Installation Versatility

- Helical internal heat exchanger achieves 90% thermal efficiency, which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Combined vertical and horizontal runs terminating through an outside wall, using Schedule 40 PVC, CPVC or polypropylene pipe; Canadian installations require ULC S636 approved pipe for venting
 - 2" pipe allows vent runs up to 25 equivalent feet
 - 3" pipe allows vent runs up to 65 equivalent feet
 - 4" pipe allows vent runs up to 128 equivalent feet

High Output with Small Footprint

- 22" diameter, combined with 90% efficiency, 50-gallon tank and 76,000 BTU input means Cyclone® HE can be installed in less space than a larger 75-gallon unit, with equal or better performance.

Side-Mounted Hot and Cold Recirculating Taps

Two Heavy-Duty Anode Rods

3-Year Limited Tank and 1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

Available in Natural Gas only.

Standard model certified from sea level to 5,300 ft. elevation. Order SMR S54 for elevations to 10,100 ft.

Optional Condensate Neutralization Kits available (Part Number 100112380).

COMMERCIAL GAS CYCLONE® Xi

Condensing Design

- Operates at 96% thermal efficiency, which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Equipped with condensate drain tee

Helical Internal Heat Exchanger

- Spiral heat exchanger keeps hot combustion gases in the tank longer to lengthen the heat transfer cycle
- Positioned in the center of the tank for more even heat distribution

Power Direct Vent Design

- Combined vertical and horizontal runs terminating through an outside wall. Vents using PVC, CPVC, or polypropylene piping; Canadian installations require ULC S636 approved pipe for venting.
 - 2" pipe, vents up to 45 equivalent feet
 - 3" pipe, vents up to 128 equivalent feet

COMMERCIAL GAS

CYCLONE® MXi—MODULATING

High Efficiency Modulating Pre-Mix Powered Burner

- Down-fired pre-mix burner provides optimum efficiency and quiet operation
- Top-mounted burner position prevents condensation from affecting burner operation

Up to 98% Efficient

Intelligent Control System with Touch Screen Display

- Exclusive A. O. Smith designed control system
- Provides detailed water heater status information
- Precise temperature control adjustable from 90 to 180 degrees
- Built-in diagnostics
- Run history information
- Cyclone water heaters include iCOMM remote connectivity; models 120-250 require optional Wi-Fi communications kit, models 300-500 come standard with Wi-Fi connectivity.
- Convenient iOS and Android Phone App

Submerged Combustion Chamber with Helical Heat Exchanger Coil

- Positioned in center of tank, surrounded by water to virtually eliminate radiant heat loss from chamber
- Direct spark ignition
- Spiral heat exchanger keeps hot burner gases swirling, uses centrifugal force to maximize efficiency of heat transfer to water in tank
- Spiral heat exchanger reduces lime scale from forming on water-side surfaces, which maintains energy efficiency over time

Power Anodes Standard on All Models

- Provides long-lasting tank protection in varying water conditions
- Powered anodes are non-sacrificial
- Automatically adjusts output needed to properly protect the tank

3-Year Limited Tank and 1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com

COMMERCIAL GAS

POLARIS® HIGH EFFICIENCY

Condensing Design

- Operates at up to 96% thermal efficiency which saves money on operating costs compared to a standard 80% efficient gas water heater.
- Helical internal heat exchanger keeps hot combustion gases in the tank longer to extract more heat into the water.
- Modulating burner maintains high efficiency operation at lower input rates.

Stainless Steel Construction

- Tank and helical heat exchanger are constructed from 444 stainless steel for excellent corrosion resistance without the need for an anode.

Whisper Quiet Operation

- Ultra quiet blower and burner minimize noise.

Power Direct Vent Design

- Direct vent using PVC, CPVC or ABS either thru-the-wall or thru-the-roof.
- Optional concentric vent kit

Advanced Electronic Control

- Large LCD display provides precise temperature control and advanced diagnostics.

Code Compliance

- Complies with SCAQMD Rule 1146.2 and other air quality management districts with similar requirements for Ultra-Low NOx emissions requirements of 14 ng/J or 20 PPM.
- Meets UBC, CEC, and ICC National Codes.
- Meets the thermal efficiency and standby loss requirements of the U. S. Department of Energy and current edition of ASHRAE/IES 90.1.

3-Year Limited Tank and 1-Year Limited Parts Warranty

- For complete information, consult written warranty or go to hotwater.com.

MASTER-FIT® BTR

The Eliminator™ Self-Cleaning System

- Designed to significantly reduce or eliminate sediment build-up inside the tank
- Reduced sediment build-up maintains rated thermal efficiency and reduces water heating costs
- Self-cleaning system maximizes tank life

Factory-Installed Draft Diverter and Automatic Flue Damper (BTR-120-400 Models)

- BTR-500 Model features induced draft design and no damper
- Low-profile draft diverter helps for installation in tight spaces
- Automatic motorized flue damper helps minimize standby heat loss

Three Water Connection Options for Added Flexibility

- Hot and cold water connections can be made through front, top or rear of unit
- Eliminator™ system operates when cold water is connected through front

3-Year Limited Tank and 1-Year Warranty

- For complete warranty information, consult written warranty or go to hotwater.com

Specify when ordering propane (LP) gas.

*Model BTR 120 is shipped with 6" x 5" flue outlet adapter. Models BTR 250, 251 and 275 are shipped with a 8" x 6" flue outlet adapter.

Standard models certified from sea level to 2,000 ft. elevation. Order SMR S54 for elevations up to 8,000 ft.

BTR-500 model features induced draft design and no damper.

MASTER-FIT® ULTRA-LOW NOx

80% Thermal Efficiency means Lower Operating Costs

Fan Assisted Combustion

- The blower is built into the low NOx burner assembly
- Complies with California SCAQMD Rule 1146.2 and other Air Quality Management Districts with similar NOx emission requirements of 14 ng/J or 20 ppm

Air-Flapper

- A stainless steel air flapper is used inside the premix system to replace externally mounted flue damper to minimize the standby heat loss and to minimize the overall heater height

Metal Venting

- Rated Category I Appliance. Uses standard double wall type "B" vent.
- Can be commonly vented with other Category I appliances
- Vent connects directly to the vent connector outlet
- An excellent choice for retrofit and upgrade installations

3-Year Limited Tank/1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

COMMERCIAL GAS CONSERVATIONIST® BT

Glasslined Tank

- Maximizes tank life.
- Fully Automatic Controls with Safety Shutoff
- Accurate, dependable control system requires no electric connections. Fixed automatic gas shutoff device for added safety. Not recommended for 180°F sanitizing.

Heavy Gauge Steel Jacket

- Finished with baked enamel over bonderized undercoat.

Foam Insulation

- Saves fuel, helps reduce standby heat loss.
- Low NOx

Complies with Texas and other Districts Requirements for NOx Emissions Less than 40 ng/j

Easy-to-Install

- Completely factory-assembled. Only gas, water and vent connections need be made. All connections are located in front and top of heaters for ease of installation and service.

3-Year Limited Tank / 1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

COMMERCIAL GAS

CONSERVATIONIST® POWER VENT

Approval Rating and Certification

- All models comply with ANSI Z21.10.3/CSA 4.3 and ASHRAE/IES 90.1-2004
- Meets Texas and other low NOx areas requiring 40 ng/J
- All models are approved for use in combined appliance applications.

CFC Free Foam Insulation

- Minimize radiant heat loss

Dip Tube

- Carries inlet water deep into the tank

Hot Surface Ignition

- Has a solid state ignition surface that does not flutter or blow out
- Provides increased reliability and efficiency over spark ignition systems. Eliminates the pilot and saves energy

User-Friendly

- State-of-art electronic gas control provides more precise temperature control.
- LED control light displays operation status and diagnostics

3-Year Limited Tank/1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

Recovery capacity based on 81% thermal efficiency.
 Available in LP (Propane) gas.
 Can be installed up to 10,100 feet without alteration.

COMMERCIAL GAS

CONSERVATIONIST® POWER DIRECT VENT

DynaClean™ Diffuser Dip Tube

- Helps reduce lime and sediment buildup and maximizes hot water output. Made from long-lasting PEX cross-linked polymer

Blue Diamond® Glass Coating

- Provides superior corrosion resistance compared to the industry-standard glasslining.

Hot Surface Ignition

- Has a solid state ignition surface that does not flutter or blow out
- Provides increased reliability and efficiency over spark ignition systems. Eliminates the pilot and saves energy.

Standards

- Design-certified by CSA International, according to ANSI Z21.10.3-CSA 4.3 standards governing storage-type water heaters.
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

3-Year Limited Tank/1-Year Limited Parts Warranty

COMMERCIAL GAS

CONSERVATIONIST® HIGH VOLUME POWER BURNER

Power Gas Burner

- Suitable for natural or propane gas
- Electronic flame safeguard control with intermittent spark ignition
- Main and pilot automatic gas valves with gas pressure regulators
- Diaphragm air switch for proof of blower operation
- Flame inspection port
- Low NOx available on models from 400,000 Btu to 2,000,000 BTU (Natural gas only)
- Factory start-up included. Required for activating and assuring maximum performance.

Fully Automatic Controls with Safety Shutoff

- High-temperature limit control (manual reset)
- CSA certified and ASME rated T&P relief valve
- Hinged-door control compartment
- Standard control is for 120°-180°F water service
- Factory-installed low-water cutoff

Blue Diamond® Glass Coating

- Provides superior corrosion resistance compared to the industry-standard glasslining.

Codes and Standards

- Design-certified by UL (Underwriters Laboratories), according to ANSI Z21. 10.3-4.3 CSA Standards
- Meets the thermal efficiency and standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1

3-Year Limited Tank and 1-Year Limited Parts Warranty

†Models are available in low NOx (include the "N" in the model number when ordering)
Exp, BTPN-600-1500 - Natural Gas only.

Specify when ordering propane (LP) gas.

Authorized start-up service included; required to activate warranty. Consult local factory representative (Continental U.S. Only).

CONSERVATIONIST® DURACLAD OIL-FIRED TANK-TYPE

Efficient Combustion Chamber

- Precast, high temperature combustion chamber made of alumina silica ceramic fiber. Engineered for maximum insulation and heat reflection. Unique design assures more complete combustion by stabilizing flame pattern.

Interrupted Ignition

- Reduces electrical consumption

Two Hand-hole Cleanouts

- Allows easy cleaning on standard models COF-385 and larger and ASME models

Easy-to-Install Burner

- Three-bolt mounting of burner assures easy installations.

3-Year Limited Tank and 1-Year Limited Parts Warranty

- Factory Start-Up included: required for activating warranty and assuring maximum operating performance (Continental U.S. only)
- For complete warranty information, consult written warranty or go to hotwater.com

CUSTOM HEAVY-DUTY LARGE VOLUME OIL-FIRED

Fully Automatic Controls with Safety Shutoff

- High temperature limit control (manual reset). CSA Certified and ASME rated temperature and pressure relief valve.
- Hinged door control compartment with key lock for ease of access.
- Two thermostats, upper and lower, for accurate temperature control.

Jacket and Insulation

- Heavy gauge steel jacket with baked powder coat finish.
- Insulated with high-density foam insulation that meets or exceed all required standards.
- Meets or exceeds the thermal efficiency and/or standby loss requirements of the U.S.
- Department of Energy and current edition ASHRAE/IES 90.1.

3-Year Limited Tank and 1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com

COMMERCIAL ELECTRIC LIGHT-SERVICE

Designed for light duty commercial applications with intermittent hot water loads.

Glasslined Tank

- Tank interior is coated with glass specially designed by A. O. Smith for water heater use.

Heating Elements

- Two 4.5 KW zinc plated copper sheathed elements are standard.

Standard Voltages

- The standard voltage is 240V single phase.

Top Mounted Recessed Junction Box

Controls

- Thermostat is adjustable through a range of 120° to 181°F with a manual reset high temperature cutoff. The heater is wired for non-simultaneous single phase operation.

Coregard™ Anode Rod

- Our anode rods have a stainless steel core that extends the life of the anode rod allowing superior tank protection for longer than standard anode rods.

Enhanced-Flow Brass Drain Valve

- Solid brass, tamper resistant, enhanced-flow, ball type, drain valve.

Maximum Working Pressure 150 psi

Factory Installed CSA Certified and ASME Rated Temperature and Pressure Relief Valve

Certified to UL 1453 for Commercial Electric Water Heaters

Compliance

- Meets the standby loss requirements of the U.S. Department of Energy and current edition of ASHRAE/IES 90.1.

Warranty

- 3-Year limited tank/1-Year limited parts.
- For complete information consult the written warranty or hotwater.com.

DEN/DEL ELECTRIC DURA-POWER™

DEN-40

DEL-30

Low Lead Content

Glasslined Tank

- Thirteen sizes, 6 thru 119 gallon capacity.
- Tank interior is coated with glass specially designed by A. O. Smith for water heater use.

Elements

- Zinc plated copper sheaths for longer life.
- Medium watt density means lower surface temperature to minimize scale build-up and more surface to heat water. Element sizes from 1.5 to 6 KW. Maximum input 12 KW

Standard Voltages

- 120, 277 single phase and 208, 240 and 480V unbalanced three-phase delta; easily converted to single-phase at terminal block (except 208V with 6000 watt elements). Single element heater, single-phase only.

Terminal Block

- Factory-installed. Just bring the service to heater and connect to block. Terminal block not supplied on 120V & 277 volt models. (No junction box on DEL6-20)

Gold Elements

- DRE models ship with the Goldenrod 24K gold plated elements (see spec sheet for kW options).
- Patented Goldenrod elements provide long life and superior scaling resistance.
- Low watt density means lower surface temperature to minimize scale buildup and more surface to heat water. Goldenrod elements carry a one-year warranty against failure due to lime scale buildup.

Fusing

- Protects all elements, thermostats, and internal wiring circuits against excess current flow. Meets National Electrical Code requirements that non-ASME tanks must have internal fusing when current draw exceeds 48 amps. Available as an option on Canadian-built heaters

Meets the Standby Loss Requirements of the U. S. Department of Energy and Current Edition of AHRAE/IES 90.1.

Standard Voltages

- 208, 240, 277, 480V single-phase and three-phase delta. Convertible from three-phase to single-phase (in field) and vice versa (except 208/54kW) 277 single-phase only.

Element availability

- DRE/DVE heaters available from 3kw to 54 KW with recoveries of 25 to 837 GPH at a 100°F rise.

3-Year Limited Tank and 1-Year Limited Parts Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

Model Number	Gallon Capacity	Dimensions in Inches			Approx. Shipping Weight (lbs)

When ordering propane change "N" to "P" in the model number (example GWH-750P).

COMMERCIAL WATER HEATER

VARIABLE FIRE™ HIGH-EFFICIENCY WATER HEATERS

Up to 85% Thermal Efficiency

Advanced Modulating Control with Venturi-Mixing Gas/Air Ratio System

Small Footprints, Zero Clearance to Combustibles on Sides of Unit

Category II and IV Listed: Requires the use of AL29-4C, a Vent Material That Resists the Effects of Corrosive Condensates

Complies with SCAQMD Rule 1146.2 and Other Air Quality Management Districts with Similar Requirements for Low NOx emissions

Capable of Firing from 100% to 25% (or a 4:1 Turndown Ratio) of the Rated Input, Based on the Current System Demand

Meets Thermal Efficiency and Standby Loss Requirements of the U.S. Department of Energy and Current Edition of ASHRAE/IES 90.1

Professional Start-Up Included - Required for Activating Warranty and Assuring Maximum Operating Performance

5-Year Heat Exchanger and 1-Year Parts Limited Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

Change "N" to "P" when ordering propane (LP) gas (Example: VWH-750-P).

COMMERCIAL WATER HEATER

BURKAY® ENERGY SAVER COPPER HEAT EXCHANGER

All Non-Ferrous Waterways

- Rustproof because water comes in contact with nothing but copper, brass or bronze
- Copper transfers heat eight times faster than ferrous metals yet offer remarkable structural strength without excessive weight
- Free from the effects of thermal shock

Efficiency Copper Coil Combustion Chamber

- Continuous coils of tightly wound copper tubing form a unique combustion chamber
- Water circulating thru the coils, around the flame, captures radiant heat which may otherwise be lost

High Efficiency Stainless Steel Burner

- Developed especially for A. O. Smith water heaters using the very latest burner principles

Forced Water Circulation Improves System Efficiency

- Water moving at 2 to 4 feet per second helps to prevent lime buildup and also scrubs extra heat from the copper coil combustion chamber

HOT WATER SUPPLY BOILERS

BURKAY® HWH GAS DOMESTIC WATER HEATERS & BOILERS

All Non-Ferrous Waterways

- All castings are made of bronze or brass
- All water tubes are made from copper
- Brazed joints or flare union construction make the boiler immune to the effects of thermal shock and thermal cycling
- A great boiler for domestic hot water supply

Efficiency Copper Coil Combustion Chamber

- The combustion chamber is a heat exchanger formed from a two passage coil of tightly wound continuous copper tube
- Water circulating through this coil surrounds the main burner and captures the radiant heat
- A wrap of insulation on the outside of the coil retains the heat captured by the circulating water

HOT WATER GENERATOR

STEAM OR BOILER HOT WATER HWG GENERATOR SYSTEMS

OPTIONAL

All HWG Systems are Fiberglass Insulated and Jacketed

Integral Bronze Circulator Pump

Both Steam and Boiler Water Units are Custom Built to Meet Your Specifications and are Completely Assembled with Components Sized, Piped, and Checked Before Shipping

ASME Rated

Cathodic Protection

Custom Sizes Available up to 12,000 Gallons

Available in Vertical or Horizontal Models

5-Year Limited Tank Warranty and 1-Year Limited Coil Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

COMMERCIAL STORAGE TANKS

STANDARD JACKETED STORAGE TANKS

Glasslined Tank

- Alkaline borosilicate composition permanently fused to steel by firing at a temperature of 1600°F, providing years of corrosion protection and dependable use.

Ideal for Use with Gas Fired Copper Heat Exchanger Equipment for Potable Water at Temperatures Up to 180°F

Threaded Openings

- All tanks furnished with threaded openings for thermometer, relief valve, 2" recirculation lines, tank stat, and drain valve.

ASME Construction on Select Models.

- 160 psi standard working pressure on all models.

Anodic Protection

TJ-80S, TJ-80A, TJV-120M and TJV-120A

- Fits through 30" door
- Magnesium anode for anti-corrosion protection

Meets R12.5 Minimum Thermal Insulation Requirements of the U.S. Department of Energy and Current Edition of ASHRAE/IES 90.1

5-Year Heat Exchanger and 1-Year Parts Limited Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

***Both McBee, South Carolina and Renton, Washington

COMMERCIAL STORAGE TANKS

CUSTOM-LINE FACTORY JACKETED & INSULATED STORAGE TANKS

All tanks derived from HD (high Draw) tanks listed on pages 172-175.

Standard Sizes

- From 140 to 1,000 gallons. all stock tanks glasslined.

Horizontal or Vertical Mounting Options Available

High-Density, Fiberglass Insulated Jackets

Meet R12.5 Minimum Thermal Insulation Requirements of the U.S. Department of Energy and Current Edition of ASHRAE/IES 90.1

ASME Construction

- Available in 100, 125, 150 and 160 working pressures; 125 standard.

Anodic Protection

Accessories

- Tanks will be supplied with the fittings located as indicated on the drawings unless specified otherwise. An 11" x 15" manhole or 4" x 6" handhole is optional on glasslined tanks 36" diameter or less.

Cabinet

- Heavy gauge steel with high quality powder coat paint provides additional insulating qualities for greater energy savings.

5-Year Limited Tank Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

*Note: These connections are not for piping connections. They are the anode locations and also serve as the required ASME 2" inspection openings.

STORAGE TANK SELECTION

*Note: These connections are not for piping connections. They are the anode locations and also serve as the required ASME 2" inspection openings.

COMMERCIAL STORAGE TANKS

HEAVY-DUTY LARGE VOLUME STORAGE TANKS MODEL HD CUSTOM-BUILT

Custom-Built Tanks From 80 to 12,500 Gallons.

Horizontal or Vertical Mounting Options Available

High-Density, Fiberglass Insulated Jackets or Bare Steel Tanks

Glasslined, Cement or Epoxy Linings Available

ASME Construction

- Available in 125, 150 and 160 psi working pressure.

Anodic Protection

Manholes, Handholes, Additional Tank Opening, M Lifting Lugs, Angle Legs, Ring Bases and Horizontal Tanks Saddles All Available as Options.

Meets R12.5 Minimum Thermal Insulation Requirements of the U.S. Department of Energy and Current Edition of ASHRAE/IES 90.1

5-Year Limited Tank Warranty

- For complete warranty information, consult written warranty or go to hotwater.com

CUSTOM-LINE STORAGE TANKS (20" THRU 96" DIA. TANKS)

NOTE:

- 1) 54" DIAMETER AND LARGER TANKS MUST BE ORDERED WITH ANGLE LEGS RATHER THAN THREADED LEG SOCKETS FOR VERTICAL INSTALLATIONS.
 - 2) SPECIFY FOR HORIZONTAL OR VERTICAL INSTALLATION.
 - 3) NO LEG SOCKETS PROVIDED ON HORIZONTAL TANKS.
- 2 each 2" ASME inspection openings are standard on tanks 36" diameter and below.
 12"x16" ASME inspection openings are standard on tanks with 42" diameters and above.

CUSTOM-LINE STORAGE TANKS (20" THRU 96" DIA. TANKS)

NOTE:

- 1) ADD SUFFIX "ES" FOR SINGLE - WALL OR "ED" FOR DOUBLE - WALL TO MODEL NUMBER WHEN EQUIPPED WITH A TUBE TANK HEATER (i.e.: HD-36-350ES).
- 2) SPECIFY FOR HORIZONTAL OR VERTICAL INSTALLATION.
- 3) NO LEG SOCKETS PROVIDED ON HORIZONTAL TANKS.

COMMERCIAL WATER HEATER

AC-U-TEMP COMPLETE HOT WATER SYSTEMS

Standard Tank Sizes from 80 to 1000 Gallons

Ac-U-Temp System Eliminates Costly Field Errors

Simplifies Installation

Standard Ac-U-Tanks are Factory Jacketed and Insulated

All Systems are Built to Order

Multi-Heater Systems for 50%-100% Back-Up

Superior I-Beam Skid

Factory Hydrostatic and Fire-Tested Before Shipping

ASME Relief Valve 125#

Tank Temperature Sensor

Tank Thermometer

Isolation Valves

Custom Tank Sizes to 10,000 Gallons

5-Year Limited Heat Exchanger Warranty and 5-Year Limited Tank Warranty

- For complete warranty information, consult written warranty or go to hotwater.com.

INSTANTANEOUS SEMI-INSTANTANEOUS HWI WATER HEATERS

A. O. Smith's HWI Models are Available for Operation with Steam or Boiler Water as the Energy Source.; They are Factory Assembled with Components Sized, Piped and Checked at the Factory Before Shipment; HWI Models are All Space Saving Vertical Models.

Code Listing: The System Will Employ an ASME "U" Code Shell; Fitted with an ASME "U" Code 3/4" Diameter Copper Tube Heat Exchanger.

Integral Pump: The HWI System Will Employ an Integral Bronze Circulator Pump.

Steam Units - Steam Trim Consists of Temperature Control Valve, Inlet and Auxiliary Steam Traps, Inlet and Auxiliary Strainers, Steam Pressure Gauge with Siphon, Vacuum Breaker and Air Vent.

Boiler Units: Boiler Water Trim Includes Temperature Control Valve and Boiler Water Temperature Gauge.

Control Features

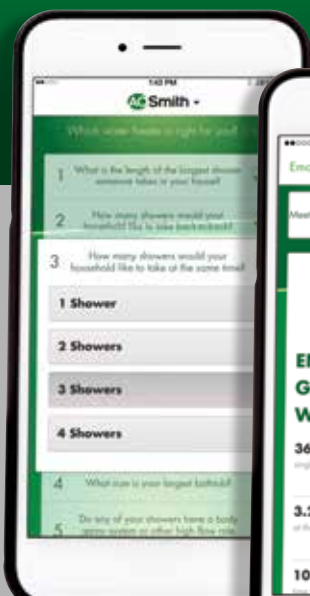

- Single Point Wiring – single 120V connection, controls including integral circulation
- On/Off switch-allows local On/Off for service
- Temperature Readout – LED readout of water temperature
- PID Temperature Control – modulates electrical control valve
- High Temperature Limit – Closes main valve under over temperature condition
- Remote Temperature Signal
- 2-Wire RS485 – Communication (MODBUS or ASCII)

CONSULT THE XPERT.

Confidently select the right water heater for your floor plans with the help of an Xpert. With just a few quick questions, the Xpert Product Selection Tool evaluates A. O. Smith's full range of product options against your installation, energy efficiency and usage requirements. The result is a custom selection of water heaters recommended just for you.
