

Specifications

- Product** Pro-Red Plus Non-Acid Coil Cleaner & Brightener
- Product Code** 8-R+
- Purpose** Pro-Red Plus Non-Acid Coil Cleaner & Brightener is a concentrated, fast-acting product that foams and lifts away stubborn deposits from air-cooled condensers and coils. Pro-Red Plus Non-Acid Coil Cleaner & Brightener is easy to use. It removes tarnish and corrosion deposits, and leaves a bright clean shine on aluminum and copper coils.
- Advantages** Pro-Red Plus Non-Acid Coil Cleaner & Brightener cleans by chemical action. Its brightening properties are as effective as conventional acid coil cleaners, but Pro-Red Plus does not contain extremely toxic hydrofluoric acid. The vigorous foaming action eliminates the need for prolonged soaking, steam cleaning or scrubbing coils. Pro-Red Plus has a non-acid formula that does not emit corrosive fumes, and will not rust ferrous metals.
- Directions** **FOR OUTDOOR USE ONLY!** Not recommended for use on coated coils. Consult the MSDS before using this product. Wear the recommended personal protective equipment.
- Mix 1 part cleaner with 3 parts of water for heavy foaming on extremely dirty condensers. Mix 1 part cleaner with 10 parts of water for light soil, routine cleaning and applications such as electronic precipitators. Use corrosion resistant equipment to mix and apply Pro-Red Plus Non-Acid Coil Cleaner & Brightener
- Shut the system off, then spray the cleaning solution onto the cooling fins from the bottom of the coil to the top, wait three to five minutes, then rinse the coils thoroughly with water. Return the system to service. Rinse out mixing and spraying equipment with water.
- Safety Data** Consult the **Material Safety Data Sheet** before using this product. Do not use this product until you have read all warning statements on the label and have consulted the MSDS. This product is offered for use by trained professional personnel only. Use only according to label directions. Wash thoroughly after using this product.
- Warning! Poison! Corrosive! Contains sodium hydroxide. May cause severe burns to skin and eyes. Avoid breathing mists. Harmful or fatal if swallowed. Use this product only where there is a source of running water available.
- First Aid: In case of skin or eye contact or suspected contact, flush the affected area with water immediately. Get medical attention as soon as first aid has been administered. Continue flushing with running water for at least 15 minutes unless directed otherwise by a physician. For ingestion, immediately drink 3-4 glasses of water. Do not induce vomiting. Get medical attention. For inhalation, remove the individual to fresh air. If unconscious or if breathing does not return to normal within a few minutes, get medical attention.
- Keep out of reach of children.**
