

Warm Tiles™ Floor Warming Accessories

Floor Warming. For Residential and Commercial Applications.

Product Overview

- Warm Tiles™ provides the right accessories to install our floor warming systems.

Detecto DT1 Heating Cable and Mat Fault Indicator

- The Detecto DT1 heating cable and mat fault indicator (battery operated) is designed to monitor Warm Tiles™ cable or mat systems at every step during installation.
- Detecto DT1 sounds an alarm immediately in the event of a ground fault detection, or an open or shorted connection in the cable.
- One year limited warranty.

Detecto DT1 Heating Cable and Mat Fault Indicator

Relay Kits

- The Warm Tiles™ relay kits (RK1 and RK2) allows you to connect multiple floor warming kits to a single thermostat, when power required exceeds 15 amps.
- One year limited warranty.

RK1 and RK2 Relay Kits

DFTRK Repair Kit

- The DFTRK repair kit can be used to make repairs to damaged floor heating cables and is suitable for use on most types of heating cables/mats with either single or dual conductor heating elements.
- One year limited warranty.

DFTRK Warm Tiles™ Repair Kit

Other Accessories

- Replacement clips, strapping, concrete tape, and repair kits are also available.
- One year limited warranty.

Certifications

- Detecto DT1 conforms to European Directives.
- Relay kits (RK1 and RK2) are UL Listed to US and Canadian Safety Standards.
