

Upgrade your air purifier with Aprilaire media.

Keep your family
healthier and your
home cleaner.

Aprilaire media traps more
airborne particulates, and
provides more efficient
heating and cooling.

Aprilaire Self-Seal™ media is designed to reduce air leakage and improve filtering performance in all* air purifiers. It removes more airborne particulates such as dust, mold, pollen and viruses improving the quality of the air you breathe.

Patented Self-Seal™ media better protects your heating and cooling system. It removes airborne particles before air enters the equipment, extending the life of your system.

A simple, contractor installed, adapter kit will up grade your system to Aprilaire's superior Whole Home Air Filtration.

* Sizes 20"x25" or 16"x25" cartridge-type media

Aprilaire[®]
Feel Good. Inside.™

Choose the media that fits your system.
